Strawberry Candle

All images © Stampin' Up!®

Featured Paper Pumpkin Kit:

- One In A Melon, June 2017

Additional supplies used:

- 126889 Paper Trimmer
- 129026 Fast Fuse
- 103579 Paper Snips
- 141682 Basic Black Baker's Twine
- 141701 Delicate White Doilies
- 129053 Heat Tool
- 102300 Bone Folder
- White candle*

Instructions:

**The candle shown is 6" tall and has a 3-3/4" diameter. But this project could be done with a slightly taller candle or one with a smaller diameter. So you may need to adjust measurement accordingly depending on the candle you use.*

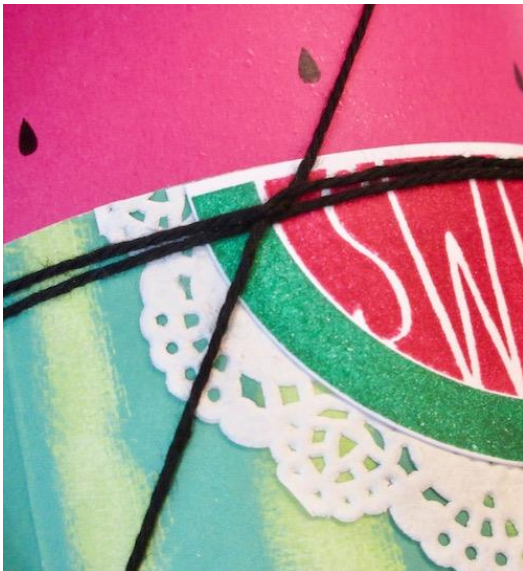

1. Cut one piece of tissue (so the seeds are going downward) to 10-1/2" wide by 5-1/4" tall. Cut another to 1-3/4" wide by 5-1/4" tall. Wrap largest tissue around candle and hold in place. Use Heat Tool to soften the wax and bond the tissue to the candle. (The tissue paper in this kit is thick, so it will take a little more work than regular tissue paper to bond it to the candle.) Be careful not to burn your fingers when heating. Add Fast Fuse to the back of the smaller piece of tissue and patch the back of the candle where there is still a bit of white showing. Heat to bond.

2. Trim off the top 2" of one of the gift bags from the kit. Then open carefully at the seam. Apply Fast Fuse generously to the backside of this rind. Wrap and attach to the base of the candle.

3. Attach a ½ doily coming down from the top edge of the rind on the front side of the candle. Stamp a watermelon image on the circular white tag from the kit. Trim across the straight edge.
4. Curl stamped watermelon with a Bone Folder. And attach on top the doily using Fast Fuse.
5. Wrap Basic Black Twine twice around the candle and tie in a bow. Tip...Wrap twine a little lower than needed. Then when the bow is tied, slide the twine up a bit so that the word "sweet" is uncovered.
6. Caution: Do not leave candle unattended (as you should with all candles). But because of the way this is decorated, there is the chance that the papers could ignite. Just keep that in mind. Be safe.
